

2/3/97

To Whom It May Concern:

I am a graduate of Landmark Education's Curriculum for Living, which includes The Forum as its introductory course. I completed The Forum in July of 1989 and I have remained active in the course work, through Landmark and various seminars and leadership programs since then and I am currently participating in a leadership training program called the "Team Management and Leadership Program" (TMLP).

When I registered into The Forum, I was a special agent for the Federal Bureau of Investigation (FBI), Houston Division. Also, I have a background of five and a half years of law enforcement as a Los Angeles County Deputy Sheriff. I have been and remain very careful about the type of work and the organizations with whom I associate.

I have found that the educational curriculum of Landmark Education Corporation has assisted me in developing increased levels of personal and professional effectiveness as an investigator and public servant. I have in previous years recommended Landmark Corporate Training Curriculum to the FBI Academy at Quantico Va. I would not have done that if I did not believe that the work itself and its practicality were valuable and sound. I am currently pursuing a course as a fine artist which has been a childhood dream. Using Landmark's technology, among other things has allowed me to make a successful transition from law enforcement to my current vocation.

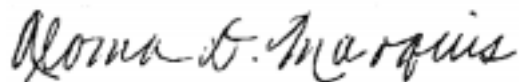

I am able to highly recommend a career in law enforcement as a very honorable and satisfying one while remaining true to myself: a fine artist. The use of Landmark's technology has made this type of flexibility more available to me in life.

In conclusion, Landmark Education is not a cult. It presents non-linear education that is a powerful compliment to the traditional education that I have already received. To classify the organization as a cult is inaccurate and a mistake since one of the outcomes would be to make that technology unavailable for interested persons to use.

Also, I am intelligent enough to be able to recognize a cult, which I am clear, would destroy my freedom of choice. Such has not been the case, nor is it so now.

Thank you for your consideration.

Your truly,
